SOFT SKILLS

Teamwork · Flexibility · Interpersonal skills · Communication · Oral Presentation · Work Ethic · Creativity · Time management · Decision Making · Problem Solving

TECHNICAL SKILLS

SOLID · Typescript · Javascript · Jest · Cypress · React Native · Git · Bash · Scrum · Gitlab · CI / CD

WORK EXPERIENCE

Ambassador
Cypress

06/2022 - present

Cypress is a next generation frontend testing tool built for the modern web.

- ☐ The Cypress Ambassador program gives me direct access to the Cypress team and helps me stay on top of their latest developments and share my feedback with others.
- ☐ In addition to helping answer community questions on the Cypress Discord channel, I Also participate in the Iranian Test Engineers Community Telegram Channel.

Quality Assurance Automation Lead
Alibaba Travels Co.

01/2021 - present

Alibaba Travels Co. is the pioneer of online travel services in Iran. It provides innovative, competitive, and enjoyable services for tourists all around the world. Alibaba.ir is the best in the Iranian online travel market. It provides domestic and international flights, train and bus ticketing, tour packages, hotel and accommodation reservations.

- ☐ I was Manual Tester for the Domestic and International Flights team, testing new features and running passive tests to find missed bugs in production.
- ☐ As part of my work, I create a project scaffold for automation tests in Cypress (Typescript) for a variety of products. Aside from that, I have demonstrated my ability to customize products on my own without assistance from others. I Dockerize and establish continuous integration pipelines with Gitlab, create tests and dashboards for reporting, and compose documentation to assist other teams.
- ☐ As well as executing my previous tasks, I now devise roadmaps and work on setting goals, training interns, and conducting job interviews.

Automation Engineer
Private

01/2022 - 03/2022

- ☐ I used Puppeteer (Typescript) to automate a routine flow, try to handle ad-hoc tasks, and debug issues. I also created a Telegram bot to have a suitable interface for users. Then I initialized a VPS and deployed the project on it.

Software Analyst & Tester
Zaman

09/2020 - 12/2020

Zaman is a small private company that specializes in mobile apps, Customer Relationship Management systems, and web apps.

- ☐ As a software analyst at Zaman, I worked on "Rasa", a project owned by Satra, which included report generation, request management, user authorization, and ticketing systems, "PMPiran" project, including learning course management and an online store, and a private shop based on Idealz.com including discount management.
- ☐ I conducted manual application and API testing for the «Myelin» application (for MS patients) and Mahdak application (for new mothers) and wrote bug reports.
- ☐ Due to the completion of the analysis phase, we decided to end our short-lived collaboration by mutual consent.

Freelancer
DeBuildEx

01/2019 - 12/2020

DeBuildEx is a small team of students and alumni of my graduate university. We tried our best to create and learn.

- ☐ I Developed two mobile applications, Dimo, an online supermarket, and ReserveIt, a restaurant reservation system.

Enthusiast
Open Source

11/2018 - Present

- ☐ I wrote an article about iOS distribution. Also I developed several open-source libraries such as: "react-native-jalali-datepicker", "react-native-animated-ruler" and "react-navigation-transition-config"

React Native App Developer
Hatef Beh Pardaz

10/2018 - 09/2020

Hatef was a small private company in the field of mobile apps.

- ☐ I Developed several mobile applications, "Bibim", an insurance services super application, "Mobser", an employee attendance system, "GHQ", a general health questionnaire, "MBTI", MBTI Test, "Health Cycle", a medical questionnaire, and "DiD", a portfolio and watchlist for Iran Stock Market.

React Native App Developer
Freight Rate

07/2018 - 08/2018

Freight Rate is a straightforward online quotation system that provides a wide range of logistical solutions for shipments. Comparing quotes and the quality of services is one of our defining factors. By providing a transparent dashboard, Freight Rate empowers you to have instant decision-making at a glance.

- ☐ The mobile application I developed features a ticketing system and profile registration, which can be used to get transport quotes and view previous orders.

LANGUAGES

English	German	Persian
Fluent	*A2 Certificate*	*Native*

EDUCATION

BSc in Software Engineering	**Diploma in Mathematics**
Kharazmi University	Soltani 4 High School
09/2014 - 06/2019	*09/2010 - 06/2014*

TEACHING EXPERIENCE

Instructor
TopFan (Kharazmi University)

07/2019 - 12/2019

- ☐ Initially, basic programming (Javascript) knowledge was covered, followed by a comprehensive react-native course. Twenty enthusiasts of varying ages were trained by me according to the syllabus I defined. I also outlined and assessed mid-term and final projects. Q&A sessions were also held.

Teaching Assistant
Kharazmi University

09/2015 - 07/2019

- ☐ C++
- ☐ React Native

Teaching Assistant
Bahonar 4 High School

06/2015 - 08/2015

- ☐ Algorithms
- ☐ C++

VOLUNTEER EXPERIENCE

Facilitator
Kharazmi University

07/2018

- ☐ I facilitated a startup weekend on "improving personal life experience" over the course of three days.

Lecturer
Amirkabir University of Technology

05/2017

- ☐ I held a workshop on Social Engineering.

Senior Translator
GameForge

09/2010 - 01/2014

- ☐ I collaborated in the localization of the Ikariam game. I Also received a recommendation letter.
